Concourse

CI/CD that scales with your project

Pivotal

Concourse

- Pluggable Resource Interface
- Running builds in Containers Natively
- Zero Snowflake-able Configuration
- Submitting builds from the local file system up to run in CI
- Pipeline pipeline pipeline !!!
- Reproducible
- Multi-tenant

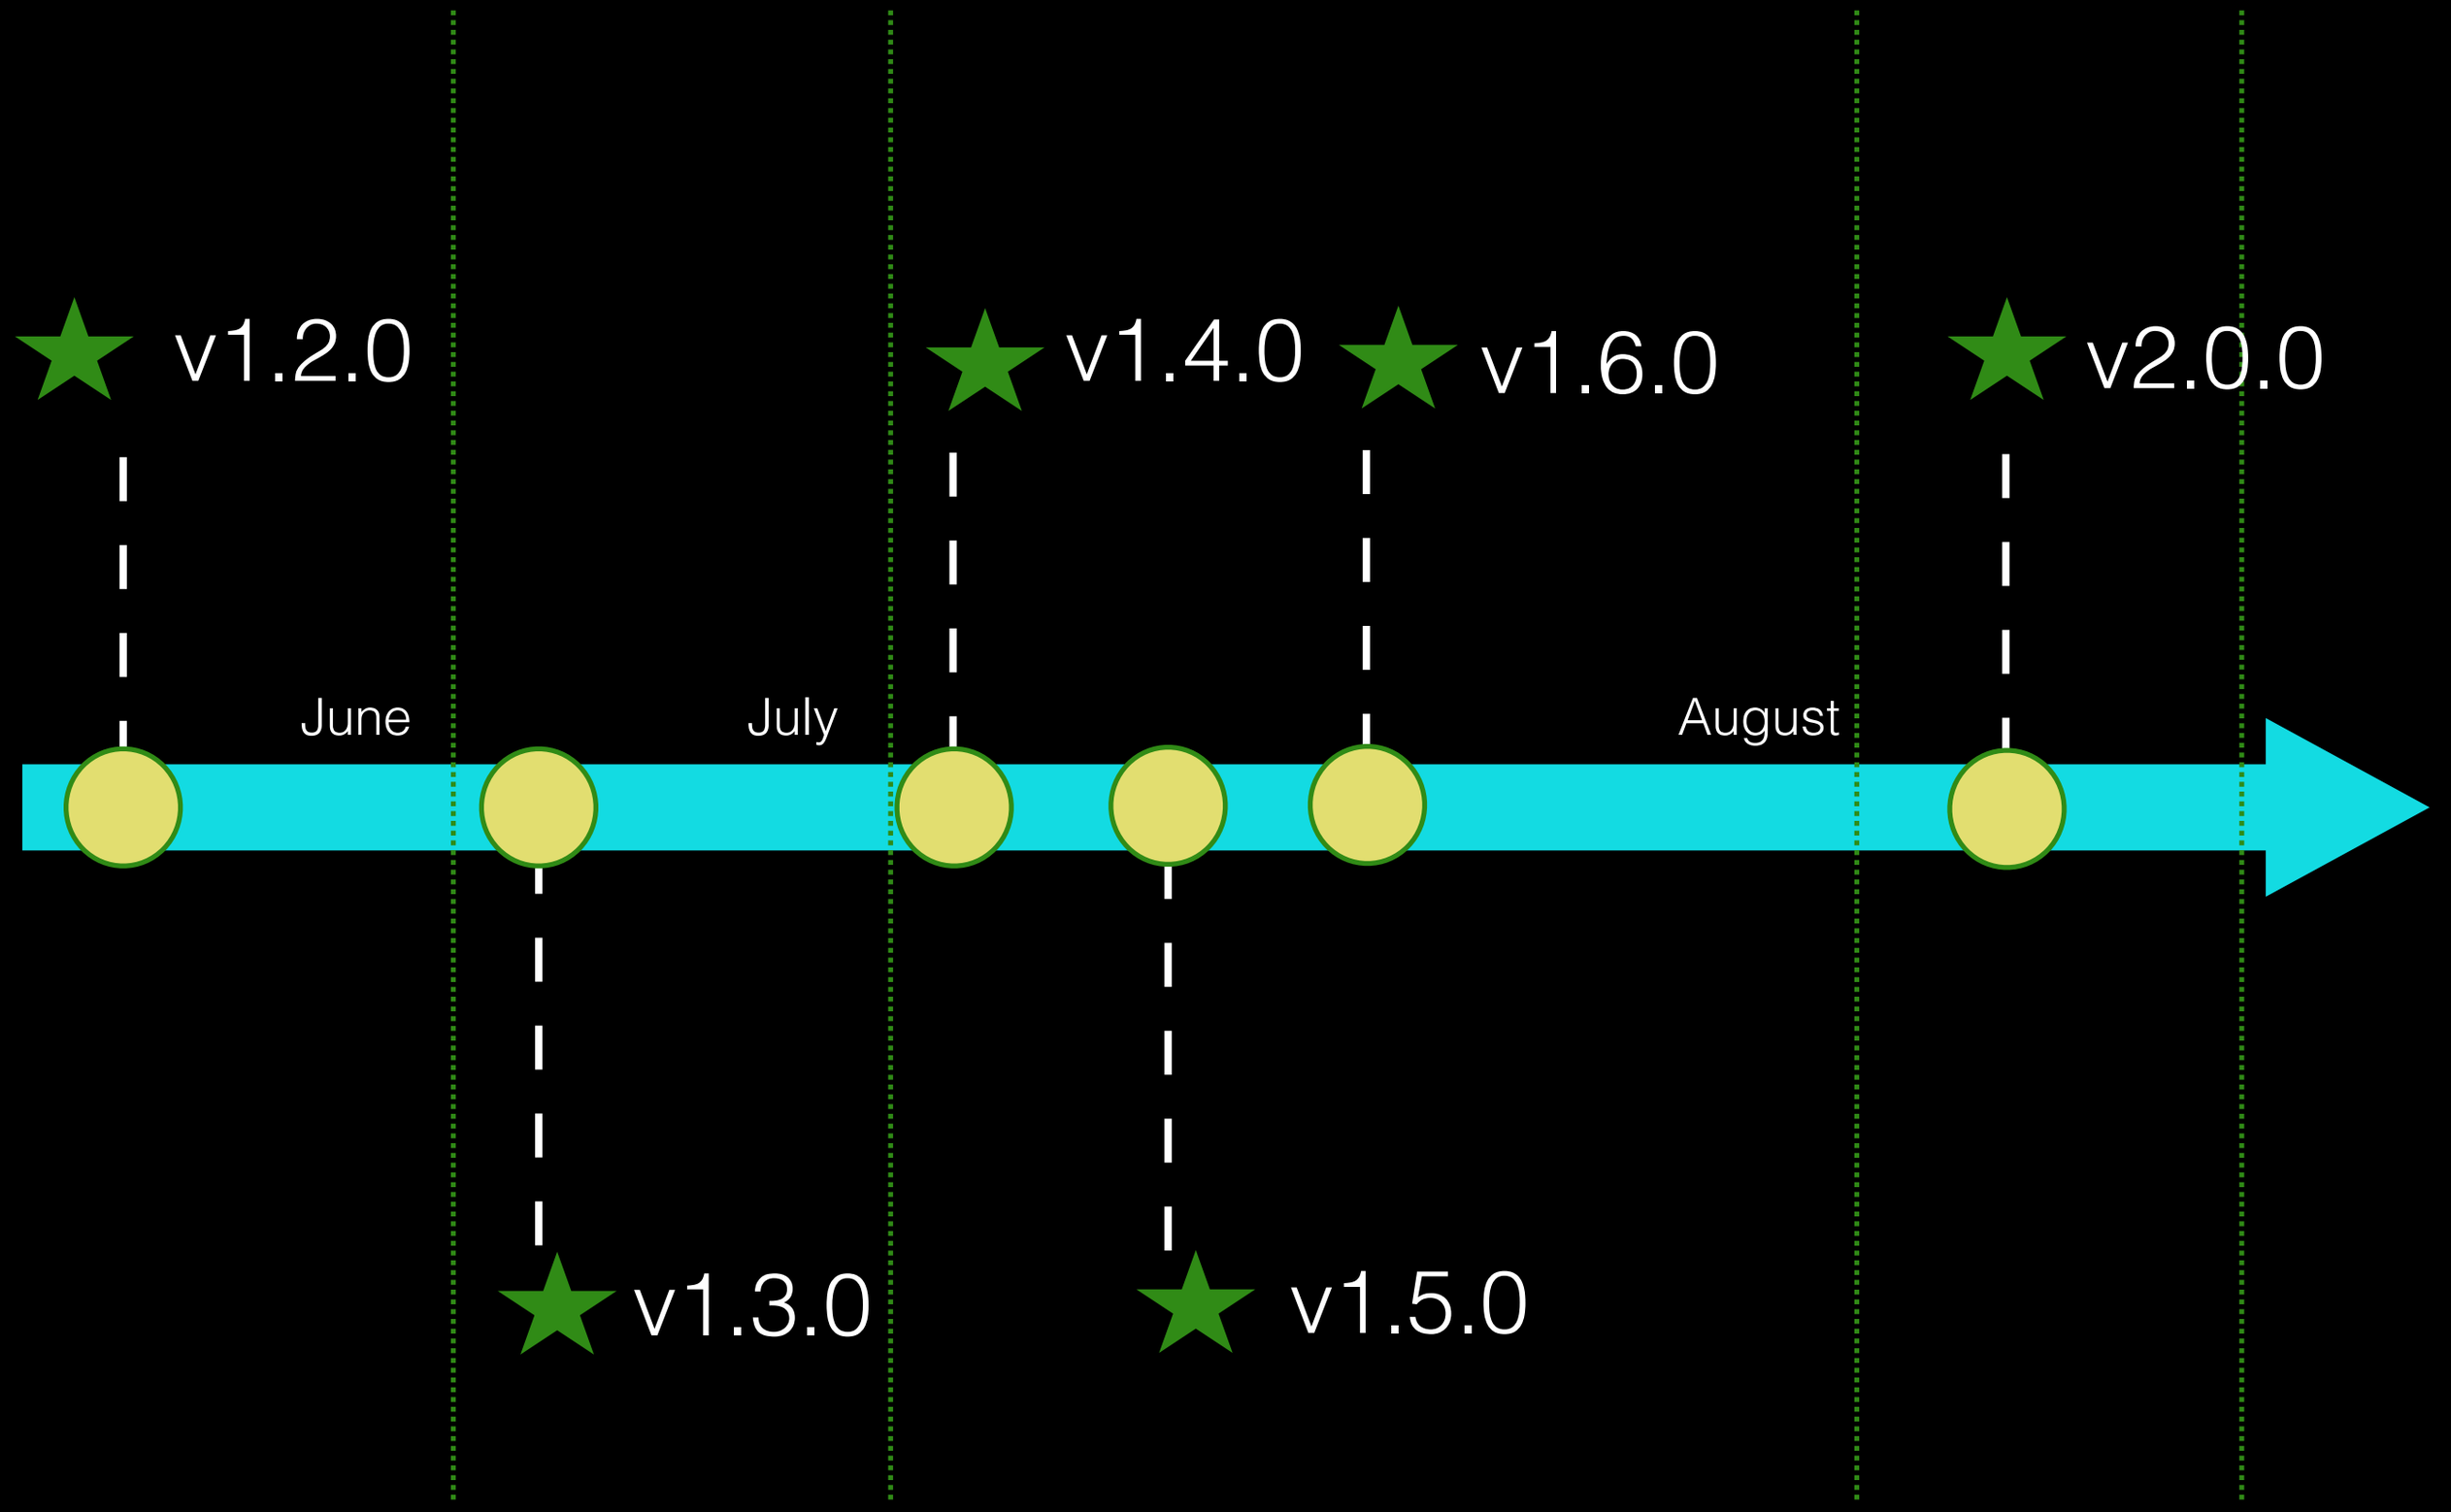
Concourse Evolution



v1.2.0
June
July
v1.4.0
v1.6.0
August
v2.0.0
v1.3.0
v1.5.0

★ v1.2.0

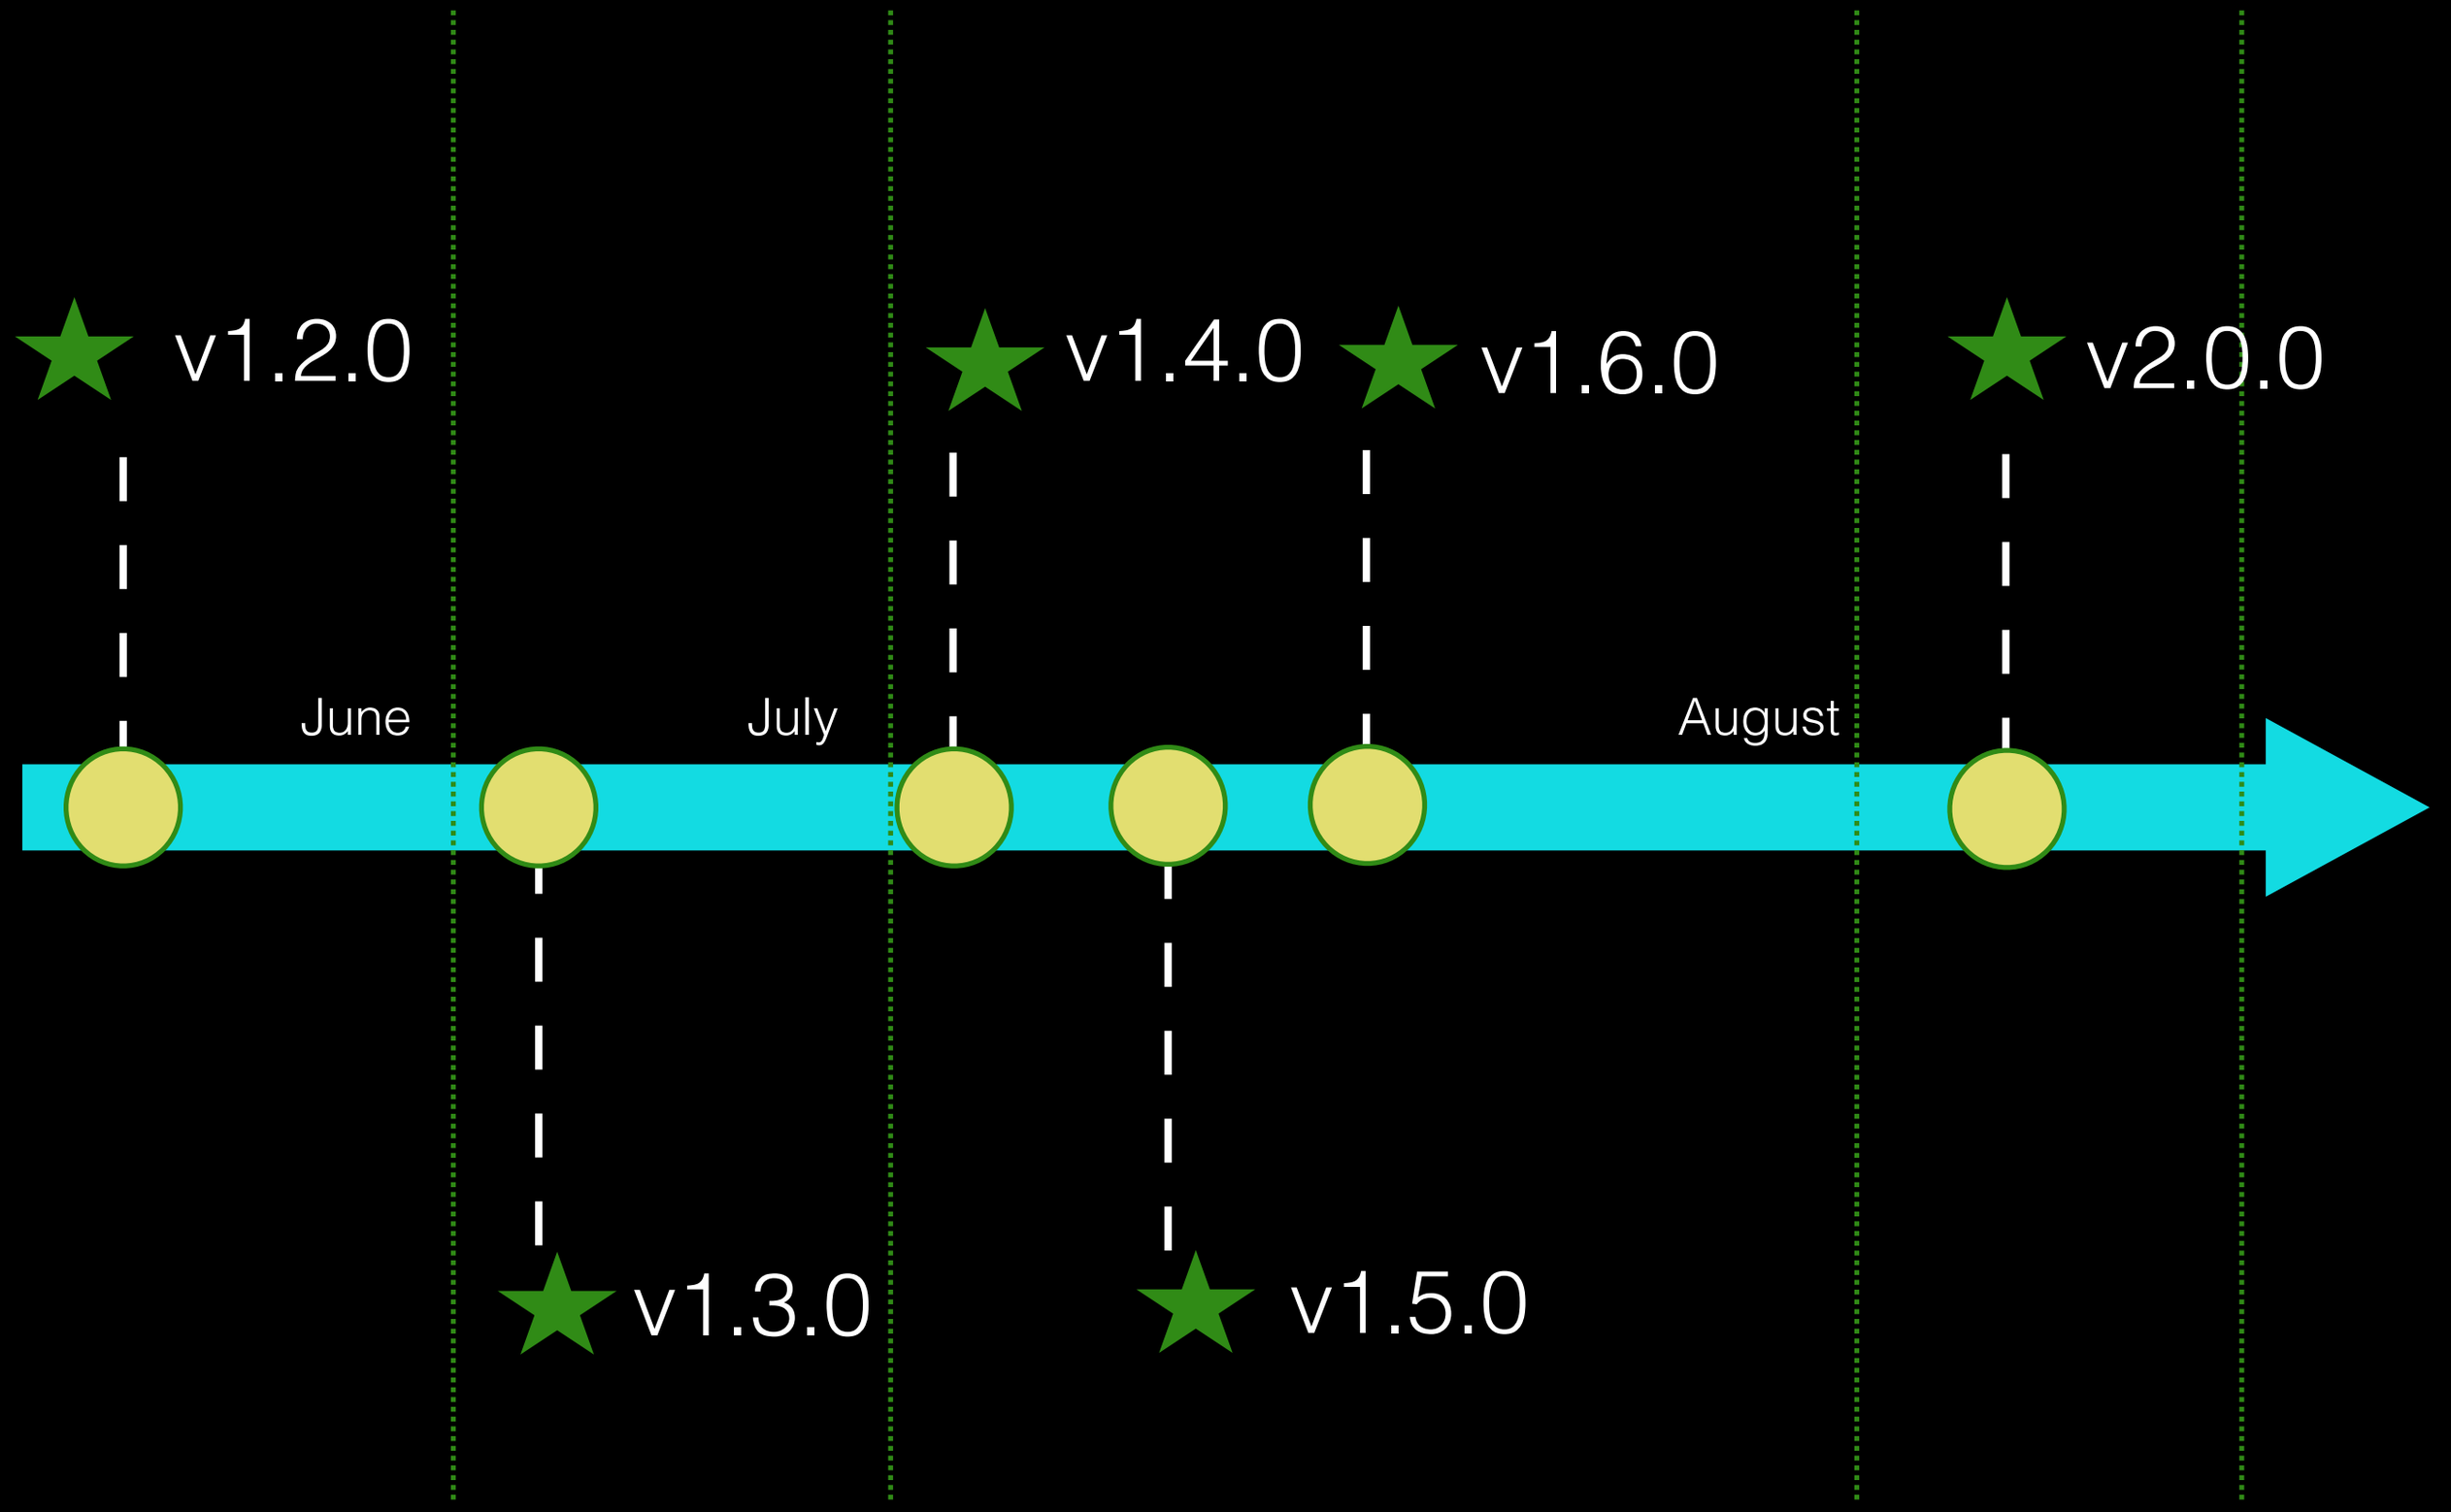
Check

- Can run for every request **not only** for **latest**
- Can **pin** for **specific version**

Fly

- check-resource

$ **fly** -t target **check-resource** -r pipeline/resource
-f tag:v4.2.1



v1.2.0
June
July
v1.4.0
v1.6.0
August
v2.0.0
v1.3.0
v1.5.0

v1.3.0

Core

- HTTP/2 Yes !
- TLS termination Yes !
- Garden-RunC instead of Garden backend Yes !
- moving to btrfs

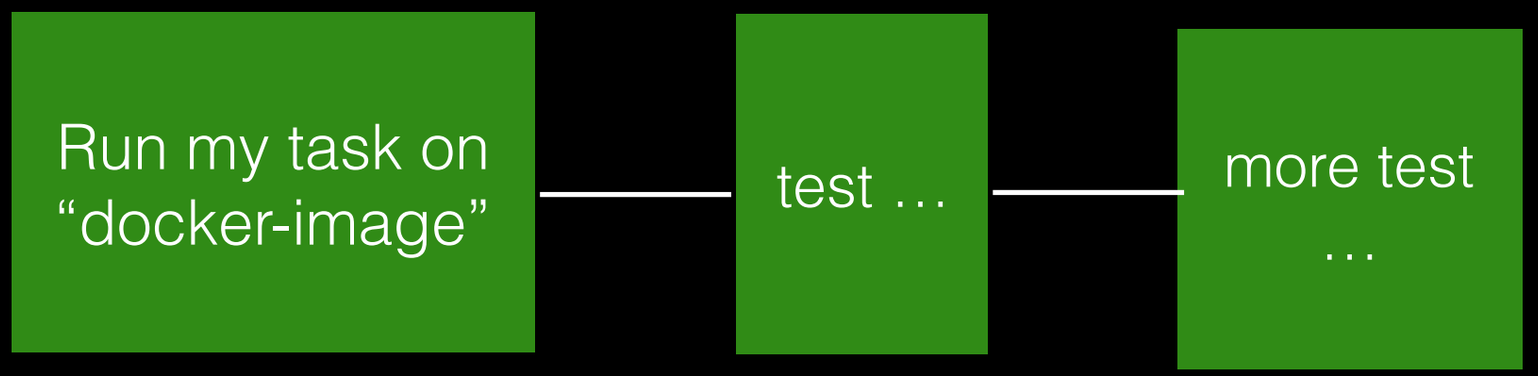
Jobs

- **builds_logs_to_retain,** specify how many build logs to keep for a job
- **build and test flow**

★ v1.3.0

Before

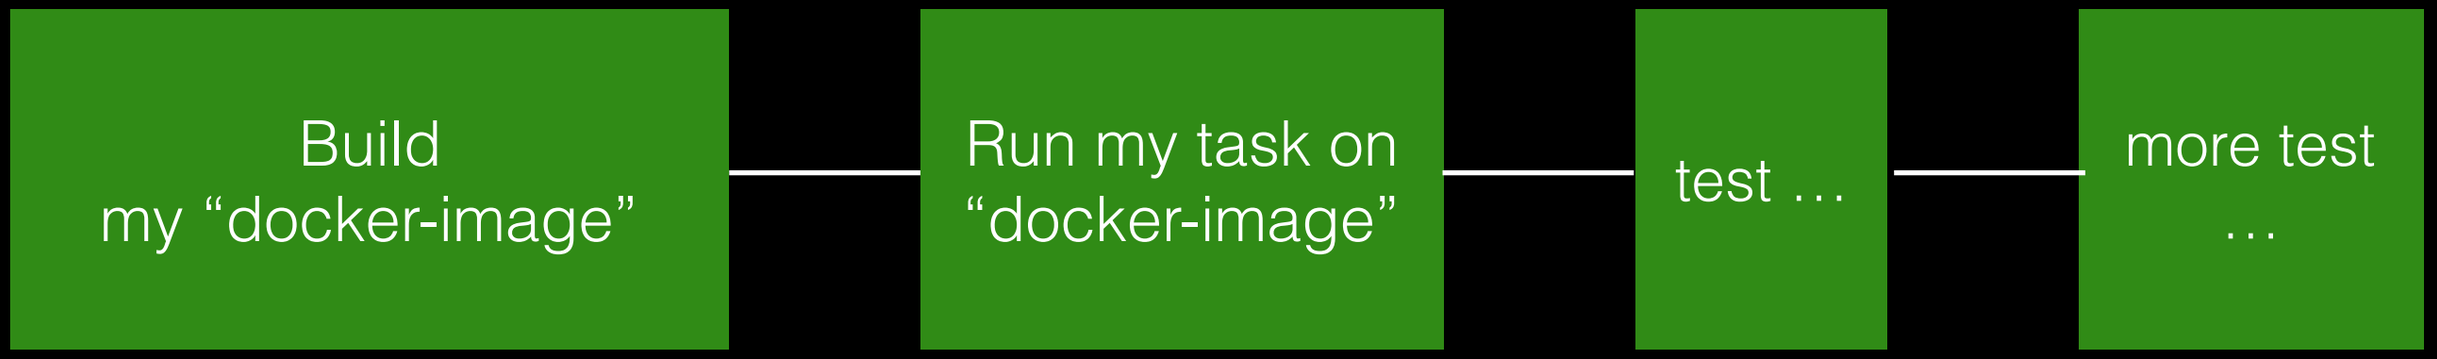
pipeline build-my-docker-image



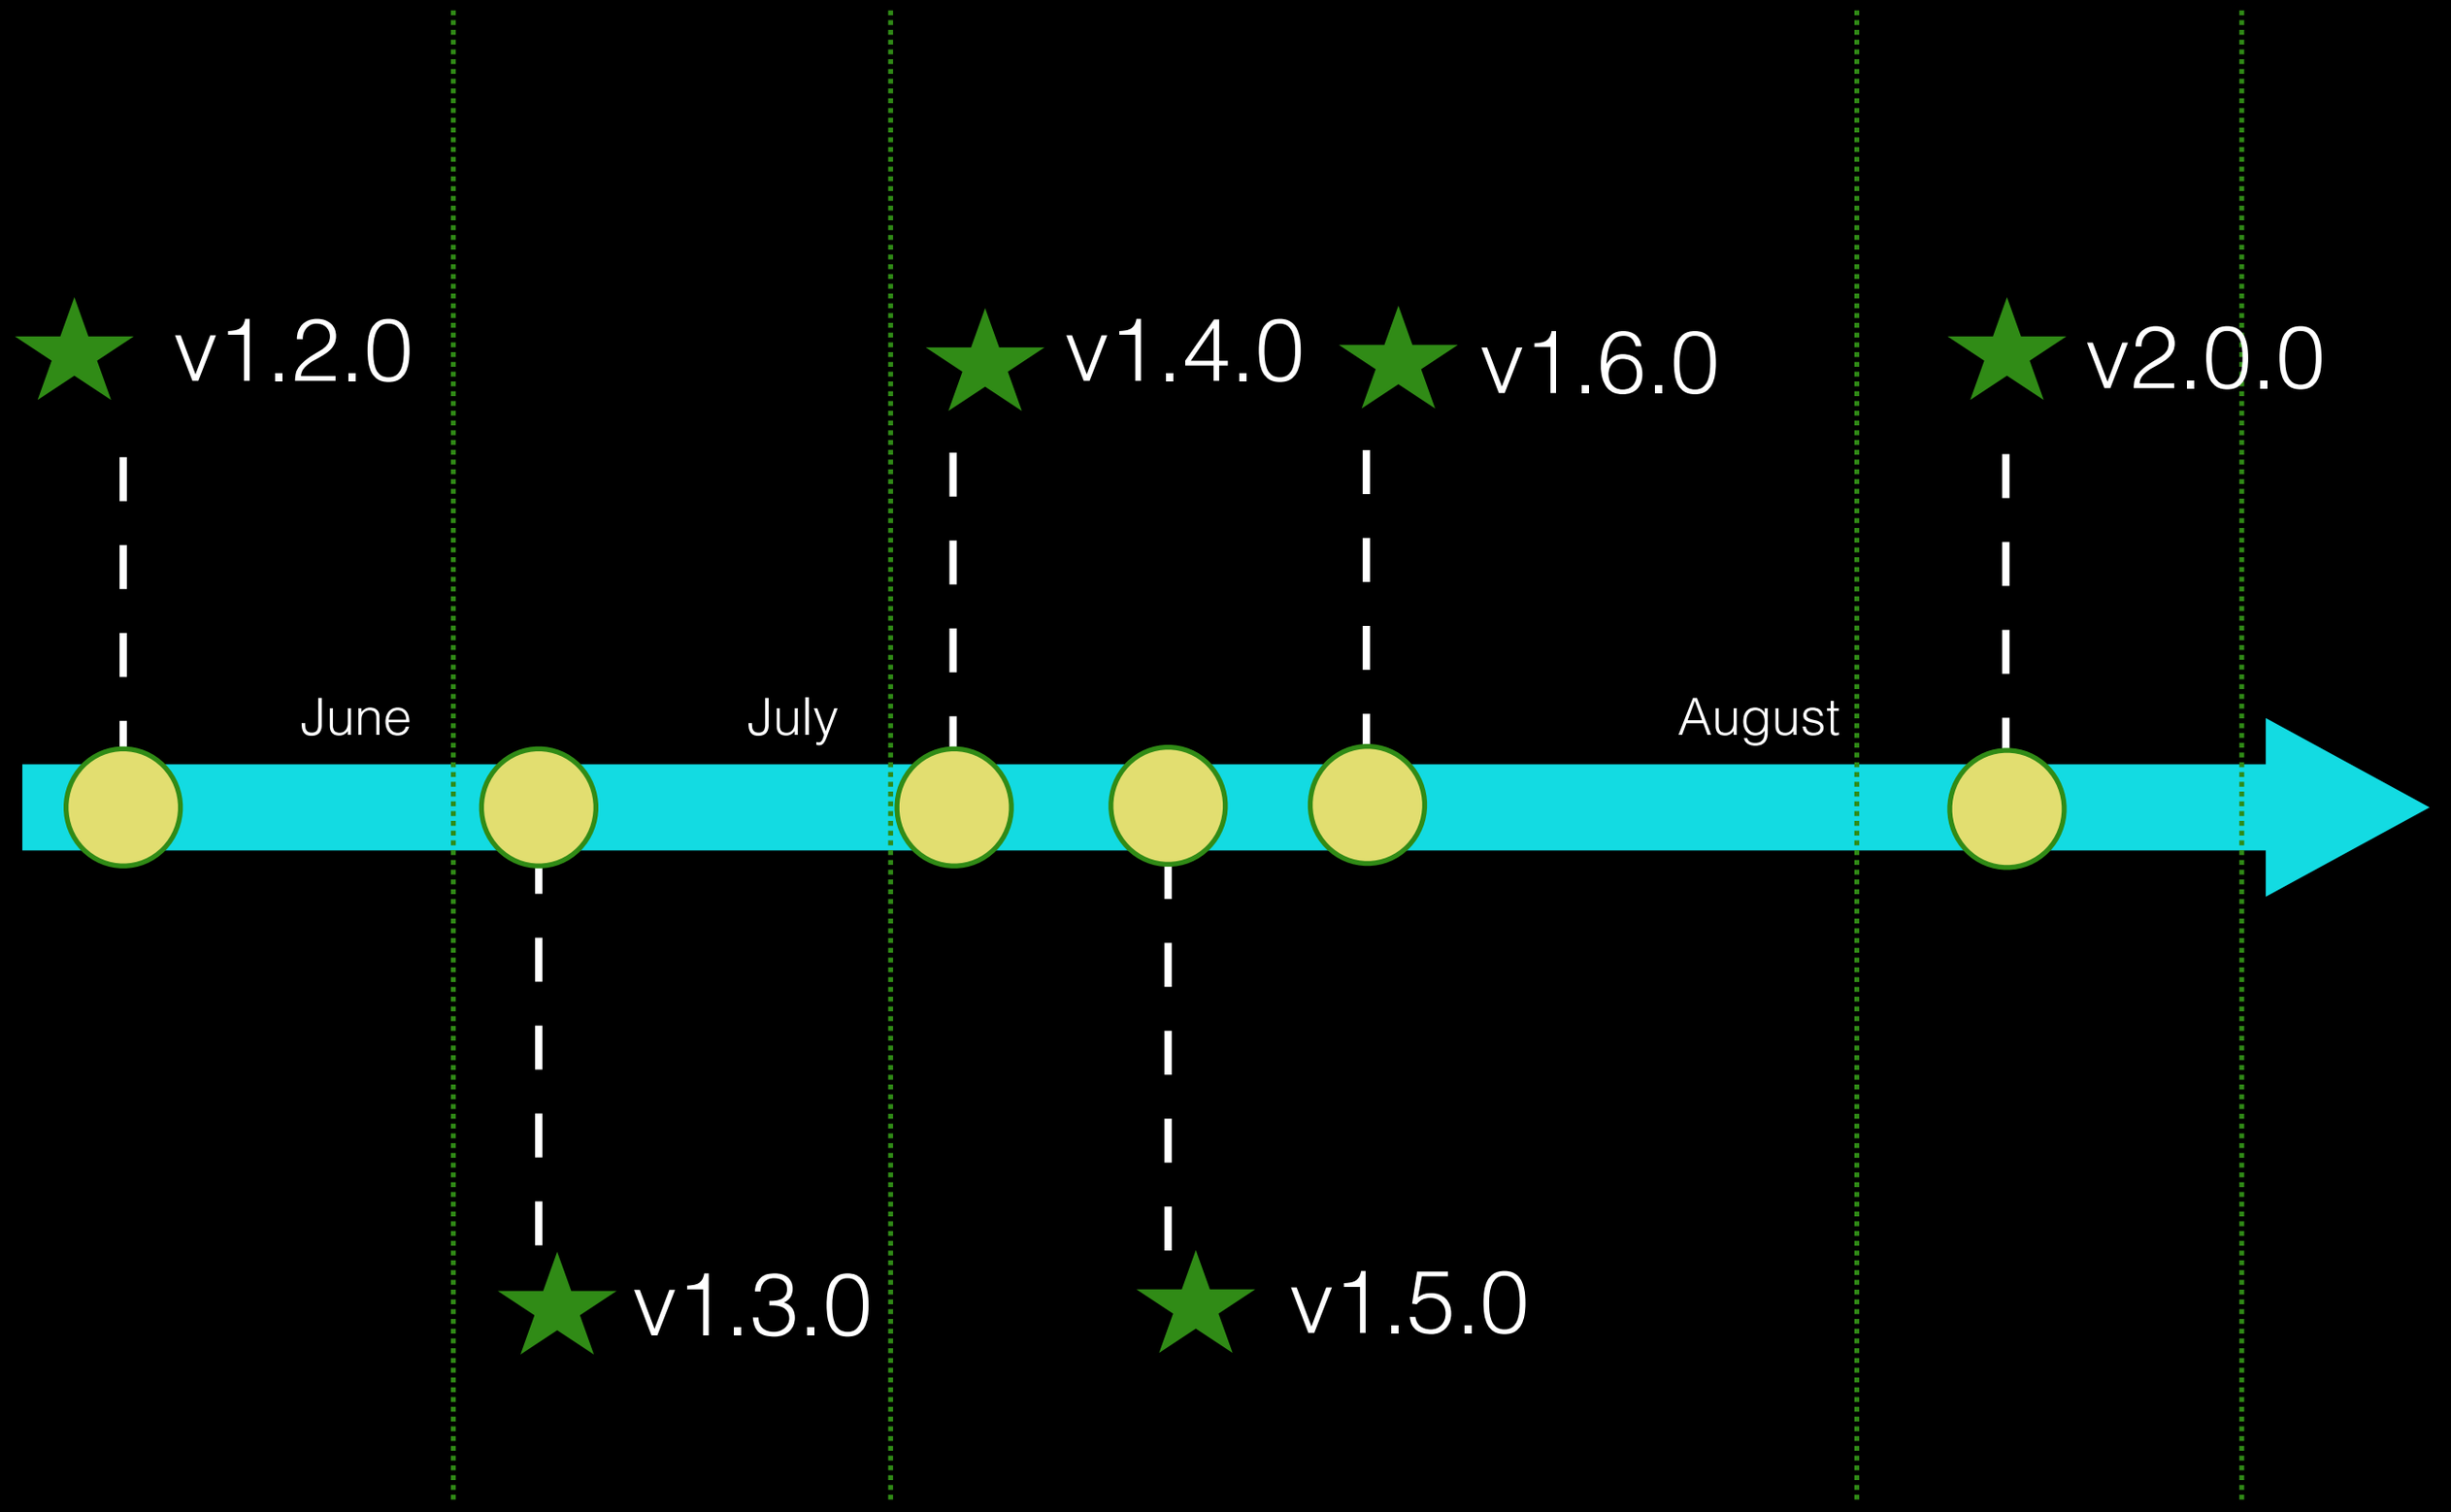
pipeline run-my-task

v1.3.0

Build and test flow



Same pipeline !!



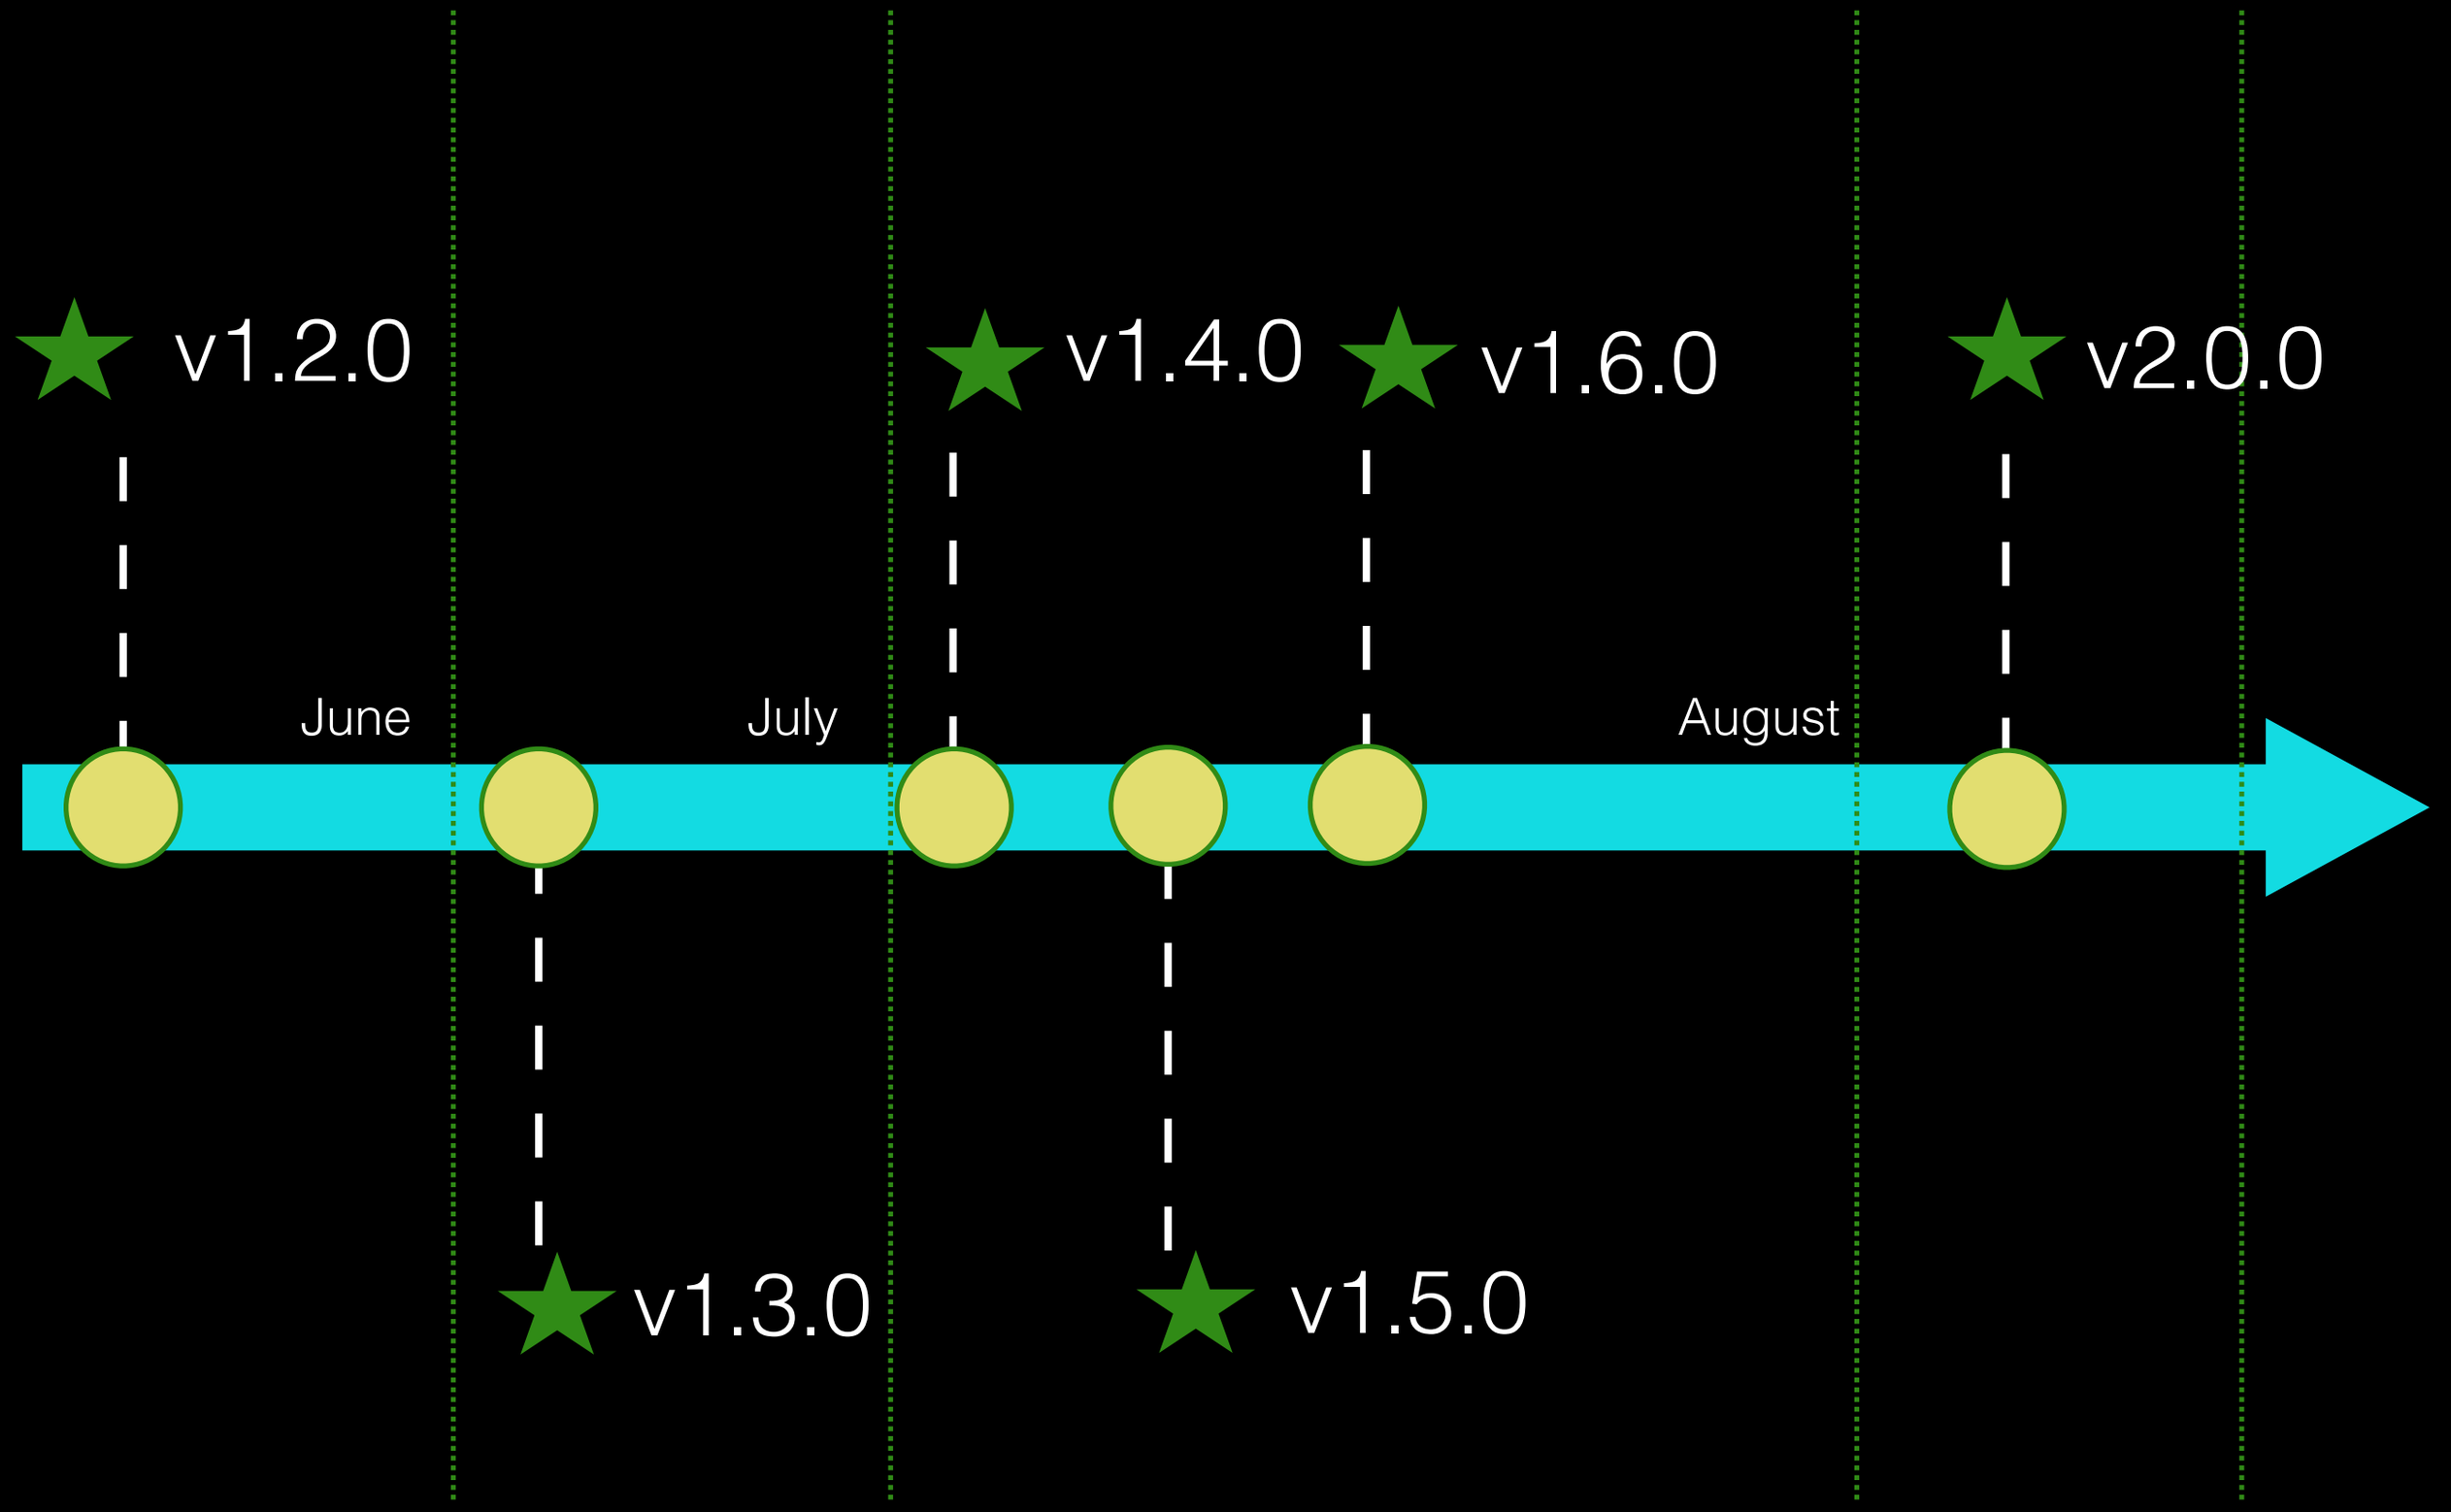
v1.2.0
June
July
v1.4.0
v1.6.0
August
v2.0.0
v1.3.0
v1.5.0

★ v1.4.0

Core

- Container retention
  - Before keep failed 1 hour, succeeded 5 min
  - Now keep only last failed build

Pivotal™



v1.2.0
June
July
v1.4.0
v1.6.0
August
v2.0.0
v1.3.0
v1.5.0

v1.5.0

Core

- Builds logs loading 12x faster
- Fetch 1 resource at time avoid CPU / Traffic overloading

v1.5.1

Task

- Can now specify which **user** to use **when running** using **“user”** property

v1.2.0

v1.4.0

v1.6.0

v2.0.0

June

July

August

v1.3.0

v1.5.0

★ v1.6.0

Core

- Official Docker Images !!!!
  - Starting ConcourseCI **“docker-compose up”**

Docker-resource-image

- Support AWS “ECR”
